

THE SCIENCE BEHIND *the* LUMIX ADVANTAGE

LUMIX 3 *and* 4 SERIES

Maximize pain relief. Maximize tissue repair. Expect exceptional resolution of patients' conditions when you use laser energy to its full potential.

Deeply penetrating Lumix lasers deliver wavelengths and pulse energies that maximize pain relief and tissue repair for nerve, muscle, ligament, cartilage, and bone.

MODEL STYLES TO CHOOSE FROM:

1. Wheeled models for unattended, precise treatments
2. Desktop models for lightweight portability
3. Multiple wavelength and peak power configuration options for various treatment effects and practice styles

LUMIX 3 *and* LUMIX 4 SERIES with 110W or 660W Superpulsed + CW Wavelengths

- Effective thermal effects with safe penetration
- Regenerative healing effects
- Powerful for deep and superficial tissues
- Excellent bone and soft-tissue biostimulation
- Resolves chronic and neuropathic pain
- More pain relief, more healing, more safety in less treatment time than conventional CW lasers
