

## **Treasurer Report**

**Spring 2022**

The UVA finances are very stable.

The P&L comparing the 1<sup>st</sup> quarter of 2021 with the 1<sup>st</sup> quarter of 2022 are almost exactly the same.

The bank account figures are about \$12,000 less than this time last year, but we're gearing up for another convention, have incurred increased payroll expenses with the migration to a new AMS and website, and have hired another employee.
